

Independent Study Requirements

All independent study classes will be held to the same rigor as the in-person classes. When students are not meeting with their teachers, they will be working independently doing the assigned work. All meetings will be conducted virtually via Google Meet. Student assignments will be submitted via Google Classroom. Students who do not maintain satisfactory progress could be dropped from the program and return to in-person instruction at their home school. **Student grades are determined by both virtual meeting attendance and completion of work.** The teacher, the parent, and the student will meet bi-monthly to discuss grades and progress.
