## Mistletoe Magic Tomorrow Night

### SPONSORED BY SENIOR CLASS

"Mistletoe Magic" was announced by Senior Class President Larry Kingry as the 1960-61 theme of the annual Christmas dance.

The dance will be Saturday night, December 17, from 8:00 p.m. to midnight in the EHS cafeteria. The dance will be semi-formal, although party dresses and suits will be very appropriate. The dance is couples only at \$2 per couple.

Larry Kingry, who is supervising the dance along with Mr. Eagan, Senior Class sponsor, said, "I am looking forward to seeing all of you at the dance tomorrow night. Everyone has worked very diligently on the decorations and we all need your support to make the dance the great success it was last year, "The Snowflake Serenade."

The Senior Class officers and several other students are in charge of decorating the dance. Sandy Carter is head-

### The Helpers Hop Success

The Helper's Hop was held in the Eisenhower High School cafetorium December 9. It was held from 10 p.m. to 12 p.m. It was named the Helper's Hop because it was a charity drive for the epilepsy patients in Patton State Hospital.

As a charity drive it was a roaring success. There were dozens that attended.

More than \$50 was collected and over 100 presents were

(Continued on Page 4)

ing the committee for decoration of the Christmas tree, which the student council and inter-club council furnished. Connie Maye is in charge of decorating the stage, Sharon Smith and her committee is decorating the ceiling, and Vicki Yardwood is in charge of cleanup and miscellaneous things.

The music will be provided by the Hi-Hatters who played for the Sweetheart's Ball, last year. Cookies and punch will be donated by the Key Club. Tickets will be on sale at the door.

## 'Christmas 1960'

The Christmas program presented by Eisenhower High School Fine Arts Departments was a tremendous success. The program was presented to the students of Eisenhower at an assembly, December 14. The public was presented with the program December 15 at 8 p.m. Both the student body and the public enjoyed "Christmas 1960" thoroughly.

The Art production class created some beautiful settings. The chairmen of overall construction; Bill Freels, John Reinhardt and John Skipper. The chairmen of the cathedral decoration was Donna Ventriss. In charge of the stained glass windows was Judy Bolye.

The Women's Ensemble had a tremendous response after singing "Ceremony of Carols." The Band played

## Seniors Visit Courthouse

For the past two Mondays, Seniors have been going to the County Courthouse. The program began with a talk given by Commissioner of Jurors, Mr. Short. He explained the Judicial system and told them in which courts cases were being held. A typical agenda was: Dept. 1 (court), an injunction; Dept. 2, an eminent domain case; Dept. 3, jury selection; Dept. 4, Juvenile Court; Dept. 5, personal in-

jury (auto); Dept. 6, forgery; Dept. 7, bad checks. After watching two sessions they were dismissed to lunch. While the Seniors were in the Juvenile Dept., Mr. Lusk, the head of the department, gave them a short lecture on the Juvenile crime problem as it consists in San Bernardino County today. Juvenile Court handles cases up to 18 years of age, and can accept up to 21 if they feel it can help. However, the judge has the right to refuse.

Some of the Seniors were able to talk to judges themselves. One group, which was visiting Dept. 5, talked to the Honorable Jesse W. Curtis Jr., in his elaborate chambers. He seemed to possess a totally different character when off the bench. He had a great sense of humor, and was very willing to answer their questions.

Immediately following, students were taken to the county jail to observe the practices employed there. Many admitted it was one of the most heartbreaking sights they'll ever see. Sergeant Baling, our guide, seemed to possess a coldness that was necessary for his job. He said that the jail was "merely for detainment not for rehabilitation."

The crime lab was next on the program, where the latest criminalistics were shown by Anthony Longetti.

Last was the inspection of the Search and Rescue equipment which consisted of Com-

# CHRISTMAS

Nearly 2,000 years ago, Christmas had its beginning. The story of how it began is well known.

When Christmas was first celebrated as a holiday, people only recognized that it was the birthday of Christ. There were no gifts, no trees, and no Santa Claus. These people realized what the holiday meant, having no gifts to lead them astray.

Throughout the centuries, many Christmas customs developed. People decorated their houses with evergreens. Candles and green wreaths were given as gifts. Those customs have carried through to our modern living. But people, now, spend \$20 — \$30 or more

on a Christmas tree. There are numerous numbers of plastic trees being made. Gifts are exchanged in a mad circle. To many people Christmas means a lot less money and a lot more trouble. People know the real meaning of Christmas, of course, but they show no knowledge of it.

Future Christmases will become more commercialized. There will be more plastic trees made. People will pay less attention to what Christmas really means and worry more about what to give who.

How can this be stopped?

In spite of all this, Christmas is a wonderful time of the year. Most people are in a good humor at this time. Be-

## SAINTS ORGANIZED

Many students may not realize it but our school has a very good dance band called The Saints. This band was organized at about this time last year. The thing that makes it so outstanding, is that this group is an "out side" activity. The members all stay after school on their own time, practicing to improve themselves and their music.

The Saints perform at our school dances, pep rallies and at the school football and basketball games. Not only do they play at our school, but they also participate in concerts with other musical organizations.

The group plays a variety

of music: Swing, Dixie-Land, Polka, Waltz, Jazz and Progressive Jazz. Mr. Emerson, the band leader, hopes to make the band a prime factor in performing at school activities. The Saints have contributed much to our school projects and have helped to make our school more enjoyable. And we hope that it will continue to serve our school in the way it has in the past year.

Don't be so fickle Marie Lang . . . Janet Fellwock and friends touring mountains . . . Julie Dobbings likes decorated Christmas trees in the middle of lunch tables . . . Betty Christen is always late for third period . . .

## EDITORIAL:

Last Tuesday night I went to Patton State Hospital to the annual Christmas Party for the Epileptics. As you remember the psychology classes sponsored the "Helper's Hop" to raise money so the EHS could be "Santa Claus" to these unfortunate people.

I would like to take this opportunity right now to thank each and every student who participated in this activity. If you could have only seen the expressions on these people's faces when they came into the social hall at Patton and saw the table full of gifts. The gifts were not elaborate or expensive . . . no . . . all they were, were little handkerchiefs and neckties. But to these people who have nothing, it was like handing them a million dollars.

All of the students who went on this field trip to Patton were very frightful at the thought of going to a mental hospital and especially to an epilepsy ward. It was even more terrifying when while we were singing Christmas carols a patient suffered a petit mal seizure. Three hours later when we left the hospital we had an entirely different attitude on mental illness than we did when we entered.

I had such a wonderful feeling inside of me for my school, EHS, for giving these people something to be happy about. I only wish that each and every one of you could have experienced this great Christmas joy.

Again I say . . . Thank you for your marvelous co-operation on operation . . . UNDERSTANDING.

# FADS and FASHIONS

By B. J. MEHESS

No question about it girls, this is the season to be pretty. Not slinky, not chic, just the prettiest girl you can possibly be on each of the twelve nights of Christmas. Luckily, being pretty is an art that doesn't depend solely on your own natural resources.

Sparkling eyes, framed with soft pastel color will always rate as "Mantraps." You can dilute your favorite eye shadow for this new effect or try pearl or silver as the lightening agent. The light reflected by these paled-down colors will put you in great competition with the Christmas tree angels.

To top that crowning glory, it's oh, so much fun to "gift-wrap" your hair with any number of little Christmas time gaieties: a band with a galaxy of paste-on-stars, gold, silver; or in dress matching colors. A wee circlet of mistletoe to crown your hair. Or, holly wreathed around your chignon. Tiny tree baubles are fun in a French twist. More fun: be a jingle belle, let a cluster of little colorful bells dangle from a bow or barrette. SHARON WITCAUKUS,, juset think of all the fun you could have decorating your "spun gold."

For more detailed information concerning hair decor for the Yuletide Season, look at the December issue of "Seventeen Magazine." Bye, bye, Merry Christmas all! May your coming year be even more beautiful for you than this one!

## Letter From The Principal

December 13, 1960

Dear Students:

I have been asked this week to make some comments about the current status of the American Field Service program for the 1961-62 school year. As you will remember, this is the program whereby one or two foreign students will be enrolled at Eisenhower High School for the next school year. It looks like our dreams are going to be realized, what with the success that we had at the Goddard program in raising close to \$300.00, and also in the support that we are receiving from the community. As you know, we need to raise \$650.00 to bring each student to Eisenhower High School. It appears now that the program is assured, and we will submit our application for a student to American Field Service by February 15.

The home placement committee is now checking on possible homes where the students may live. There are rather stringent requirements in the selection of a home. Among them of course, being that the family must be willing to take a foreign student into their home, and treat this student as a full fledged family member, and provide for the support of that student while he is in Rialto. In the home where the student resides, both parents must be over 37 years of age, the student should preferably have his own bedroom, and the mother in the home cannot be working.

I know it will be a very gratifying experience for all of us here at Eisenhower to have one or two foreign students on our campus during the next school year. All of us will have a big job in mak-

## Hi Tri Sponsors Christmas Party

Hi Tri, a campus organization sponsored by the YWCA of San Bernardino, is sponsoring a Christmas Clothing Drive. All clothing that is contributed will be sent to temporarily homeless girls.

The twentieth of December is the day set aside for the party, which will be given by the E.H.S. Hi Tri members. This clothing drive and party is the first service project of the newly organized club. Although the drive for clothing will be continued throughout the coming year, in connection with the Women's Club, it is being especially concentrated upon during the Christmas holidays.

President Marty Brown, said that the smaller children were usually the ones that were given Christmas parties and, "We wanted to do something for the girls our age."

Once a week several Hi Tri

ing the AFS students feel at home, and making them a real part of our school. It will not only be a big thing for Eisenhower High School, but for the community of Rialto as well.

Mr. James Yurkunski has consented to be the faculty co-ordinator of the AFS project. He will have the responsibility of advising the students and seeing to it that everything goes well with them while they are here. If anyone has any recommendations as to ways we can make the AFS program meaningful, and also as to how we might raise additional funds, I wish you would communicate with one of the students who are serving on the AFS committee, with Mrs. Kropf who is President of the AFS, or with me.

Sincerely,

EDWARD V. RYAN,

Principal.

members will go to Juvenile Hall and help the attendants care for the small ones during feeding and bathing time.

Membership in Hi Tri is open to all senior high school girls who are interested. If you have any questions concerning membership please contact Mrs. Henry or Marty Brown.

## CLUB CORNER

Hi-Y, a new club on campus, has just elected their officers. President, Ben Devine; Vice President, Kenny Cox; Secretary, Earl Mehl and Treasurer, Van Dunlop. The Hi-Y basketball team is slated to vie Pacific's Hi-Y team Saturdays.

Sen-tetts have made 30 stuffed animals for the children in the children's ward at the County Hospital.

Marilyn Hill is having a Christmas party for Azurets December 20. They will go Christmas caroling and later on gifts will be exchanged with secret pals.

## E.H.S. Eagle Completed

The metal Eagle, which was made by Mr. Thompson's metal shop has been completed. It is now being displayed on the tile wall at the front of the administration building.

Many hours of hard work has been put into the making of the Eagle. It shows a great deal of skill and effort. If you haven't seen it yet, why not go and take a look? It would be well worth your time.

On behalf of the entire student body, we would like to thank Mr. Thompson and his class for their contribution to help make Eisenhower a better school.

## "Bs" Romp Victor Valley

Last Friday night the E.H. S. B team rallied for a fine win, 35-22. Heading the game was Radcliff and Fields with 8 points each. It was a very good game offensively as well as defensively. Those who played were Albanez, Barnes, Fields, Mathews, Radcliff, Rentz, Riley, Wheaton, Zercher, Marquez, and Bartells.

They started off a little bit slow, 2-10 at the quarter, but came back at the half with sixteen consecutive points for a score of 18-10. They maintained that lead for the half resulting in a final score of 35-22.

Eisenhower received 37 free throws in which they made 15 for a 40 per cent rating.

Victor Valley received 18 free throws and made 7 for a 30 per cent rating.

Olson was high for Victor Valley with 8 points.

The B's are looking forward to a fine coming season with plenty of potential.

## Helpers . . .

(Continued from Page 1) taken in which also were accepted for admittance. The \$50 will buy gifts.

Cookies and various types of refreshments were enjoyed by those who attended. The cafeteria was decorated with a homemade Christmas tree made by Mike Heuer. The hop was sponsored by Mr. Ernie Matuschka, psychology teacher at Eisenhower.

Penny Bunce, psychology student, suggested the activity and the psychology class put into effect.

The students that helped

## Eagles Halt Jackrabbits

The Eagles edged Victor Valley last Friday night, 51-47 in a fine contest to the end. It was a good game in shooting as well as rebounding. Jerry Koch led in points (14) and Ed Goumont had 13. Jack Lucas had 13 rebounds and Koch had 12. Quimby of the Jackrabbit squad had 17.

Playing on the Eagle squad was Gaumont, Hogel, Koch, Lucas, Morris, Soren, and White.

The game started off fairly even and remained that way throughout the end of the first quarter. The score was 7-8 Eagles. For every point that Victor Valley made the Eagles came back with one to match it, at the half the score was 23-20. The game was very thrilling throughout and tension became stiffer toward the end of the game. Two men from both squads were fouled out. Finally in the last minute, despite a desperation Jackrabbit at the Eagles won 51-47. The team showed great promise and looks forward to a successful season.

The Eagles played again last Tuesday night and romped Beaumont. It wasn't a terrible difficult game and everybody got to play.

Penny Bunce were: Linda Painter and Sandy Ashford. The gifts were distributed to the patients at a party that was held at the hospital December 13, 1960. The party was also sponsored by the psychology class.

## DOPE SHEET

MIKE HUGHES

The basketball season has now arrived and the Varsity team has been out there at all the games in full spirit. So far the Varsity team has played four games.

The first game was with Victor Valley on December 2. This game was a victory in favor of Victor Valley. The second game was with Claremont on December 6. This game was in favor of Claremont.

On December 9, came a victory in favor of EHS with Victor Valley. The score of this game was 51-47. On December 13, we played Beaumont and this was another victory for the Varsity.

Ed Gaumont who plays on the Varsity team scored 13 points at the Victor Valley game on the 9th. At this game Ed got five rebounds.

Ed has been playing basketball for five years and does not play any other sports.

In Ed's opinion this year's basketball team is better than last year's because they have more experience. He also thinks that the Victor Valley game of last Friday was the hardest one so far.

Coming up on December 16, for the Varsity team is a match with Burroughs, and on December 19, the Varsity will play Banning.

### Aquila Still On Sale

Those who haven't bought your annuals, buy one now! So far about 30 students have signed up to buy one.

The Aquila, this year, is going to have 20 extra pages than last year's plus two colored pages.

The annual staff has worked real hard to raise money for the annual organization. These students have put forth a lot of effort for you to remember this year. So, buy your annuals now.
