Interest Profiler :: Instructions

The Interest Profiler has 60 questions about work activities that some people do on their jobs.

Read each question carefully and decide how you would feel about doing each type of work:

-  = Strongly Dislike
-  = Dislike
-  = Unsure
-  = Like
-  = Strongly Like

At any point during the Profiler you can change your answer to a question. Simply use your mouse to move to the question where you want to change your answer. Then select your new answer.

The scores below are a summary of your interests; they represent how much you enjoy each type of activity. The three highest scoring areas form an interest profile that can be used to explore occupations. These results should be considered a guide for your career exploration, not a definitive statement of which occupations you should or should not pursue. The results do not mean that you will be good at a particular occupation, only whether you might enjoy the type of activities required by that occupation.

Your top three interest areas in order of importance are:

- Social 30
- Conventional 29
- Enterprising 23

Your other interest areas in order of importance are:

- Artistic 18
- Investigative 18
- Realistic 15

If you haven't logged in, you can write down each interest area and its corresponding score to the right. When you return to the Interest Profiler, you can choose "Enter your score" where you can type in the score for each interest and go directly to the list of matching occupations. If you are logged in your Interest Profiler has been saved to your portfolio and you can return to review your results at any time.
