Parent Project

Is your child failing school? Using drugs or alcohol? In a gang or tagging crew? On probation?

Is your child defiant? Disrespectful? In trouble frequently?

Are you a frustrated, burned-out parent? Would you like to improve your relationship with your child?

WE CAN HELP! WE WILL GIVE YOU THE TOOLS AND SUPPORT TO:

- Prevent or stop your kids from using tobacco, alcohol and other drugs.
- Stop arguing with your child FOREVER!
- Help your child improve his/her grades and school attendance.
- Recognize and prevent gang involvement.
- Learn how to "out-will" a strong willed child.

LETS FACE IT..... The tougher it gets to be a kid, the tougher it gets to be a parent.

Our kids face unprecedented pressures and problems. No wonder so many of them have given up. Society has so many ills and troubles.

While this may explain their difficult, defiant or destructive behavior, it doesn't excuse it. Parents need to learn effective prevention and intervention techniques in order to help their children swim against the tide and grow into safe competent adults.

Traditional parenting programs stress communication. They presume that if parents make their desires clearly known in an appropriate way, children will naturally respond.

The truth is, even when parents communicate skillfully and kids know exactly what parents want, many strong-willed children refuse to change their behavior. Parents are ignored, ridiculed, threatened, and even hit.

Communication certainly isn't bad, it just isn't enough. It takes more than talk to motivate kids to change. Motivating and influence our children's positive change is what the Parent Project is all about.

If you would like to learn how to be a more effective parent/guardian, please join us!
