

How to connect to a Google Meet

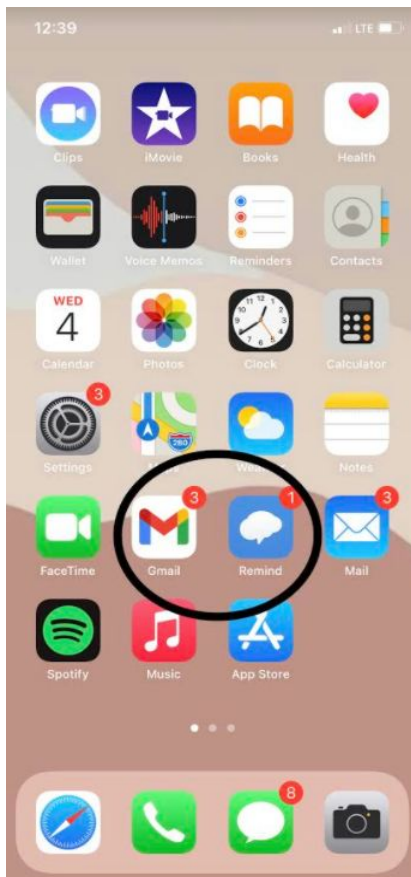

(on a cellphone)

- It is not a requirement to have a Google account to connect to a Google Meet. However, if you are connecting with an account other than a Google account, you will need to wait to be admitted into the meeting by the host
- There are two ways to connect to a Google Meet- a link & a "nickname". Whichever is provided will be the means to which connect to the meeting.

****The following instructions will follow as a user with a Google account. Also, the apps are not REQUIRED, but do make the process easier. ****

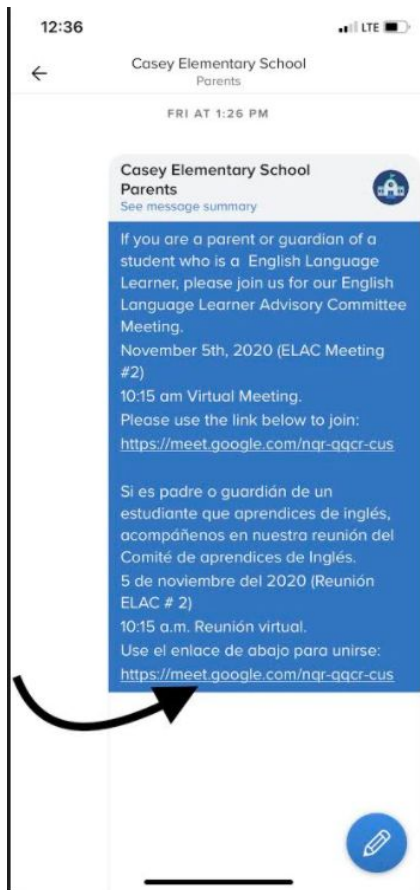

APPS:

- GMAIL: This is an email app for Google accounts and has the Meet feature integrated.
- REMIND: This messaging app will allow you easy access to announcements from the school and teachers.

HOW TO:

1. Open Remind
2. Go to the message inviting you to join a virtual meeting
3. Click on link

you will then be transferred to the Meet in Gmail app

4. Click the blue "Join" button
(see next page)
